

*Shipping and Logistics
can be*

A GOOD FIT

For sure, you experienced more than once the pleasant sensation of a cloth, which is really a good fit. Think to your favorite one.

It is comfortable, it follows your movements and it never makes you feel tied. It's pleasant to your skin and it has the right fabric consistency.

That's how we try to make our clients feel while we are offering them our services.

A GOOD FIT

FINSERVICE EUROPE SRL is a **multimodal forwarding and logistics** company with a staff which is top skilled in international shipping, documentation, fiscal and customs matters.

FINSERVICE EUROPE SRL is neither a so-called “one man band” company, where just one person is doing everything at a time, nor a “megacorporation” where a client often feels like an ant to an elephant.

FINSERVICE EUROPE SRL can adapt itself to its clients needs, supplying them with adequate support and trying to give a **“comfort” feeling**, through personal relationships promoted by its right dimensions.

We do not pretend to be the best solution to everyone, but our clients are companies whose dimensions and needs are very different from each other, and we still were able to build long-term relationships with them so we can proudly say that we succeeded in being for them “a good fit”.

FINSERVICE EUROPE was born in 1991 by a merging of five companies which were involved in several forwarding sectors. It started its headquarter in Livorno (a.k.a. Leghorn). Since then, it evolved by establishing a **network of selected and reliable agents** which allows it to manage traffics **in the main ports all around the world**.

FINSERVICE EUROPE is a member of **GLOBAL AFFINITY ALLIANCE** which is our bridge to world market. This professional network provide us selected freight forwarders all over the world, **best freight rates and highly skilled and reliable partners**.

EXPERIENCE, COMMITMENT,
AVAILABILITY, NETWORKING.

To FINSERVICE EUROPE **commitment and integrity** are not just words. They rather describe real behaviour, applied in every company levels since its birth. Those concepts, easily understood and shared, thanks to company dimension, **drive everyday company action**.

SPACES

Wide **YARDS AND WAREHOUSES** are available to our customers to supply several logistic and intermodal services. These areas and facilities, located in our main site in Livorno, are directly managed by **specialized staff**, and they have been certified to be compliant to **AUTHORIZED ECONOMIC OPERATOR FULL (AEOF)** standards by the EU customs.

EQUIPMENTS

FORK-LIFTS with several payloads move our clients goods and containers.

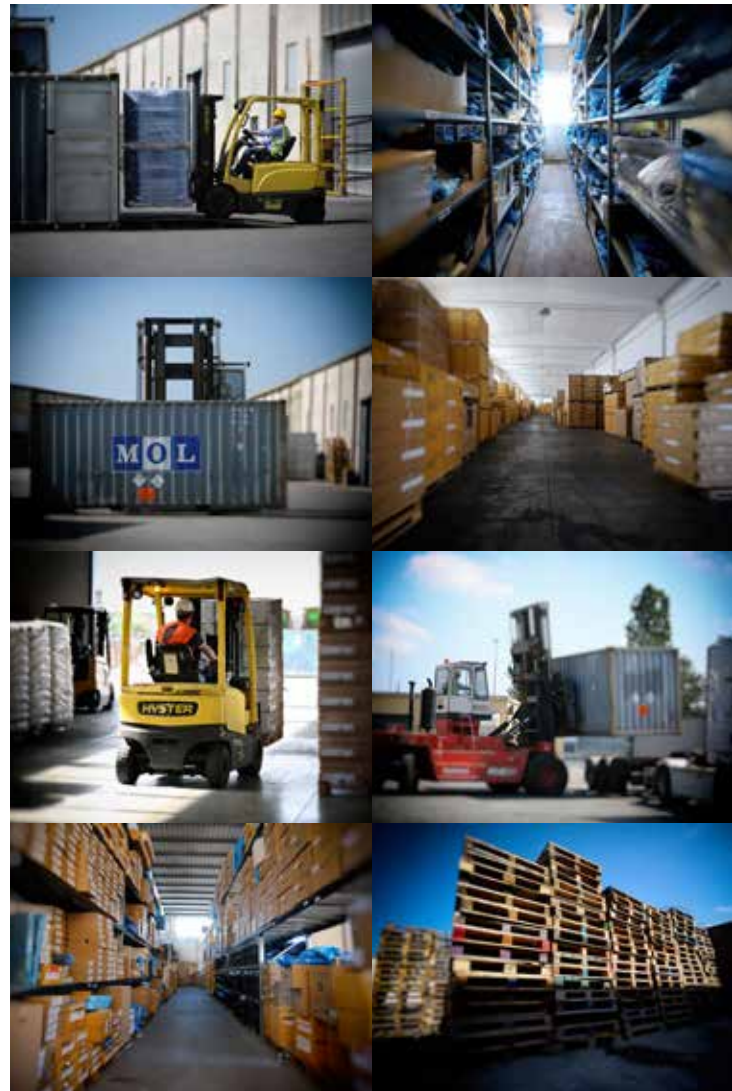

SPECIAL EQUIPMENTS are available: fork-lift clamps, a mobile ramp for wheeled vehicles loading, pallets wrapping machines, pallet heat shrinking oven and a flexible conveyor to load break bulk cargo in tank trucks. AC sockets are also available to power **REEFER CONTAINERS**.

ELECTRONICS

Electronic Management of goods and barcodes allows our clients to control goods stock and movements within our warehouse. **Products barcodes**, supplied by customers or by FINSERVICE EUROPE itself, allow better flow control of goods leaving the warehouse or goods tracking. Goods databases implementation, performed within FINSERVICE EUROPE by innovative tools, allows development of **solutions to control goods stocks and movements** in an incredibly short time. These solutions are always tailored to follow our clients needs.

**FLEXIBILITY
SOLUTIONS
EFFICIENCY**

CUSTOM BONDED WAREHOUSE

allows to stock goods as if they still were outside EU. Storing time is unlimited by law. So this tool is perfect for goods distribution. Our clients, willing to follow their markets seasonality or opportunities, by the C.B.W. they can **delay duties payment** up to the moment when the goods are custom cleared to European market.

FISCAL/V.A.T. DEPOSIT

is an opportunity to importers who cares about their cash-flow. It allows to importer **to delay Vat payment** from custom clearing moment to usual periodic Vat payment. This interesting tool is totally independent from custom bonded warehouse and, despite of its name, **it DOESN'T need the goods to stand within the warehouse.**

Administrative tasks requested to beneficiary are not extremely complex and FINSERVICE EUROPE can help you to understand procedures to obtain the benefit.

EDI CUSTOMS PROCEDURES

allows our dedicated staff to quickly perform customs declarations within our offices, making **custom clearing process quick and smooth** also reducing to a minimum the risk of spreading documents to external offices. **AUTHORIZED ECONOMIC OPERATOR "AEO-Full" certificate**, released by EU Customs, gives evidence of our solvency and customs reliability.
